Latest in Flight Planning Seminar

Drop in to Carman Airport, Tuesday November 13th 7:00 to learn the latest on flight planning updates from Mountain City Aviation – RSVP to John Carley, Maule Aircraft of Western Canada dealer , www.mauleaircanada.ca or phone 204 745-3122 if you plan on attending so that they have an idea of how many are coming. see you there....JillFlight Plan 2012 (FP2012) is an initiative of the International Civil Aviation Organization (ICAO) to update the content requirements of the internationally-utilized flight plan, with a worldwide implementation date of November 15, 2012.

These updates will affect the alpha numeric string codes; in particular Equipment Type codes and remark suffixes used for filing flight plans. These changes are designed to address current and future status of aviation and air traffic management technology.

As of September 15th, NAV CANADA sites across Canada will be able to accommodate both current and new flight plan formats. This is a transitional step towards full implementation of FP2012 on November 15th when only the new flight plan format will be accepted.

For an overview of Flight Plan 2012 changes and additional resources, please visit the OnBoard website:

Decision Making Course – November 3

Over 60 people signed up for the Decision Making course that was co-sponsored by the RAA and Springfield Flying Club. As pilots, we are always on the lookout for a new tool to help us do the job better and, being interested in aeroplanes; most of us are interested in the systems that make them work. Decision making has both of these attributes. It is one of the tools we use to conduct a safe flight and there is a way of doing it systematically, which makes it more effective. A systematic approach to decision making leads to more appropriate decision making. When we know that decision making is a 'tool' in our kit, we will be more likely to pull it out and put it to good use.

The course was conducted by Aaron Doherty from Harv's Air and began at 0900 on 3 November. This is approved by Transport Canada for fulfilling the re-currency requirements. Thanks to Peter Moodie for arranging for the course, various aviation companies, Harv's and Dr. Fogel for the door prizes and Jim Gould for the refreshments after the course.

Happy landings and thank you Peter and Aaron for a great course.

Aviation Film Nights at SFC

Aviation Film nights are planned this winter at SFC. The Film Fest will begin with "SOARING HIGH" and save January 10th, February 7th, March 7th and April 11th (for the Snowbirds!) on your calendar. Bring your friends and family; feel free to pass this info on to other film aficionados. Try out Marissa's popcorn and Chuck's snacks, enjoy some great films, and visit with your neighbours, while the winter deep freeze creates the best cross country skiing, snowmobiling and ski flying in the country.

Bill Zuk, aviation writer, filmmaker, and member of Canadian Aviation Historical Society (CAHS) will introduce SOARING HIGH. The Manitoba Chapter of CAHS is proud to work with the Lyncrest Airport community to find and screen some aviation film treasures. The Lyncrest community is pleased to welcome Bill Zuk and this exciting and educational Film Fest.

See you at the Lyncrest Airport Theatre in the New Year!

Happy Flying

Jill

PS. We're looking for helpers to post the posters at local grocery stores, pharmacies, mail boxes, and other places people might want to see the poster. If you can help, print off as many copies as you need and post it at your favourite shopping mall, country store, or mail box... thank you.....J
